

A MANGO MYSTERY

The streets all look the same
The shops though have brand new names
Some of the signs I can still recognize
But the faces I see now take me by surprise

Chorus

*I used to know it as the apple
And that lasted for an eternity
But this city has changed to bittersweet fruit
So now I gotta solve a mango mystery*

It is love-it is hate
Sometimes rough-sometimes great
One moment I'm staying, the next I want to go
At the end of the day, I still don't know

Chorus

*I used to know it as the apple
And that lasted for an eternity
But this city has changed to bittersweet fruit
So now I gotta solve a mango mystery*

Bridge

I never thought I'd let you break my heart
And never thought I'd love you like I do
So now I wonder if I ever walk away
Will I be able to love anyone but you

The memories feel like yesterday
Yet now they seem so far away
I know if I should get the guts to leave
The going is gonna make me grieve

Chorus

*I used to know it as the apple
And that lasted for an eternity
But this city has changed to bittersweet fruit
So now I gotta solve a mango mystery*
