

ANOTHER SHORT STAY IN ANOTHER PARADISE

How we got in here
We do not know
But we plan on stayin'
Till someone says we gotta go

It's a pretty cool arrangement
Having some laughs and hanging out
Though it's a strange engagement
Making sure the mood stays light
And not getting confused about
What is wrong and what is right

Chorus

Misgiving...misgiving...misgiving
Sometimes you just realize too late
Forgiving...forgiving...forgiving
Sometimes you gotta leave it to fate

One day we heard about some action
Goin' down in the Alley
So we said how much trouble could there be
We won't hang too long
Because we must stay very strong

Chorus

Misgiving...misgiving...misgiving
Sometimes you just realize too late
Forgiving...forgiving...forgiving
Sometimes you gotta leave it to fate

Well the whole world knows how we played it
Forget about right and wrong
Forget about stayin' strong
There is no other way to say it:
We got nailed

But we'd been dumped in a place
Where we did not belong
And once we took that first taste
We were a lock to fail

Now as we start our prayin'
And look back on our stay in paradise
We're just sayin'
It was like bustin' out of jail

Chorus

Misgiving...misgiving...misgiving
Sometimes you just realize too late
Forgiving...forgiving...forgiving
Sometimes you gotta leave it to fate
