

BAD TO WORSE

It came upon us one night
Like a bolt out of the blue
We looked at each other as friends
Then suddenly saw something new

It must've come from a hidden place
Like a comet from the dark
Blazed a trail right between us
And lit a stupid spark

Chorus

*We could never plan a thing like this
Our lives would be forever cursed
'Cause if it's good that's bad
And if it's bad that's worse*

The world was turning inside out
The air around us grew hot and thin
Time was moving in a desperate way
The strength we had was giving in

Where we were headed we both knew
The moment itself was taking us
Where we were headed we both knew
The moment itself was unmaking us

Chorus

*Then you said we can't do this
Our lives would be forever cursed
'Cause if it's good that's bad
And if it's bad that's worse*

Bridge

It was a mindless drama unfolding
Playing someone else comes with major risk
If this had reached the final scene
The ending would have ruined our special gift

Thank goodness you could stop yourself
One of us needed to be strong
Because both of us would always know
What could have been so right
Would have been so wrong
What could have been so right
Would have been so very wrong

Chorus

*If we had gone ahead with this
Our lives would be forever cursed
'Cause if it's good that's bad
And if it's bad that's worse*
