

## BE GOOD TO YOURSELF

We didn't want a long goodbye  
But we sure know how to drag it out  
We should enjoy every moment we can  
After all the tears we've cried  
Since we will both be ragged out  
Once we're alone again

*Chorus*

*You wanted nothing...you wanted everything  
You only wanted to give to someone else  
Now we can give to each other no more  
So just be good to yourself*

Your passion always had a perfect stage  
As long as you kept it hidden inside  
Well there's no one alive who would ever claim  
That we are living in some golden age  
So how do you handle a passion denied  
When you only have yourself to blame?

*Chorus*

*You wanted nothing...you wanted everything  
You only wanted to give to someone else  
Now we can give to each other no more  
So just be good to yourself*

People say things happen for a reason  
But for you and me that has not been true  
Things got so crazed so fast for us  
We found out things happen because they do

*Chorus*

*You wanted nothing...you wanted everything  
You only wanted to give to someone else  
Now we can give to each other no more  
So just be good to yourself*
