

DECREDENCE

I've been searching for a word that captures
The loss of faith-the loss of trust
That many folks around here feel
As they shake their heads in disgust

Chorus

*I hear a song of losers
I hear a song of shame
It's a song of loss without precedence
From spineless cowards who always
Want someone else to blame
The song they sing now needs a name
The only word is Decredence*

They measure success by hurting the lowest
And rejoice as our bonds get ripped apart
Values forgotten and principles ignored
It's painful to see the disintegration start

Chorus

*I hear a song of losers
I hear a song of shame
It's a song of loss without precedence
From spineless cowards who always
Want someone else to blame
The song they sing now needs a name
The only word is Decredence*

Bridge

I wish I could say
I see some sign of hope
But with the mutts in place today
I'd have to be smokin' dope

We really need to dump these slugs
They sit and watch our world sink around them
Take no action or make no stand
They'll just let it be our children's problem

Chorus

*I hear a song of losers
I hear a song of shame
It's a song of loss without precedence
From spineless cowards who always
Want someone else to blame
The song they sing now needs a name
The only word is Decredence*
