

HELLGATE TREASURE

There's treasure all around us
I can see fortunes in the sky
But every time I look at it
I have to shield my eyes

There's treasure all around us
I can feel pieces on the ground
Yet when I try to reach for it
I get banged around

Chorus

*It's said the river holds a treasure
From a shipwreck long ago
With a rare, precious cargo
Hidden somewhere down below*

This river has its dangers
There are deadly currents and water cliffs
You gotta deal with killer whirlpools
And survive all the big-time risks

Chorus

*It's said the river holds a treasure
From a shipwreck long ago
With a rare, precious cargo
Hidden somewhere down below*

There are treasures of every kind
So I don't know what I might find
Every day I make the journey though
Like I'm part of that forgotten crew
Searching for a treasure lost long ago
Or a treasure that's brand new

Chorus

*It's said the river holds a treasure
From a shipwreck long ago
With a rare, precious cargo
Hidden somewhere down below*
