

## I STARTED DATING A SINGLE CELL CREATURE

I started dating a single cell creature  
And I gotta say there's no time to play  
Gotta check each morning  
Gotta watch for warnings  
It must be safe to start the day

### *Chorus*

*Single cell creatures need lots of stuff  
They really can never get enough  
They need so much help to get through the day  
Because the pain is never far away*

I started dating a single cell creature  
I can't sit down 'cause I have to move around  
Gotta track conditions  
Gotta scan transmissions  
Can't have any mournful sounds

### *Chorus*

*Single cell creatures need lots of stuff  
They really can never get enough  
They need so much help to get through the day  
Because the pain is never far away*

### Bridge

I have no life I must confess  
But I really can't complain I guess  
When I see how good my creature's feeling  
My heart just about takes to squealing

I started dating a single cell creature  
Got no time to chill 'cause I got needs to fill  
Got no margin for error  
One mistake brings instant terror  
So if the drama don't thrill the screaming will

### *Chorus*

*Single cell creatures need lots of stuff  
They really can never get enough  
They need so much help to get through the day  
Because the pain is never far away*
