

IF THIS WERE ANY BETTER

The days are growing softer now
Man, those were brutal times we had to get through
I'm guessin' they'll be back before too long
So let's enjoy the start of something new

Chorus

*Why should we change a thing
Even if we could
If this were any better
It would be no good*

I have set a very low bar these days
'Cause all the dumb things are such a mess
There are so many ways to have a disaster
When we don't have one, we have a success

Chorus

*Why should we change a thing
Even if we could
If this were any better
It would be no good*

You're the sweetest degenerate I ever met
This is from the heart so it means a lot
I can't promise things will be all hats and horns
But, what I'm sayin' is, let's give us a shot

Final Chorus

*Why should we change a thing
Even if we could
If it were any better
It would be no good*

*Why would we ever change a thing
Even if we could
If we were any better
We would be no good*
