

JOY IS THE MUSIC OF THE SEASON

It has become our normal way
To fall face first through the year
To rush around from day to day
And never get a chance to hear

Chorus

*The music playing all around
The music playing those sweet sounds
Joy is the music of the season*

Happy neighbors on the street
Come together to say hello
The melody floats down so sweet
As folks smile at the first snow

Chorus

*There's music playing all around
There's music playing those sweet sounds
Joy is the music of the season*

Bridge

It is such a beautiful feeling
To hear the music in our soul
When the world outside is freezin'
With daily counts of bought and sold
But we know the real reason
We feel the only reason
Joy is the music of the season

The morning rises bursting bright
With the dawn of the miracle birth
We start to feel the brilliant light
As notes of joy play on the earth

Chorus

*Here's music playing all around
Here's music playing those sweet sounds
Joy is the music of the season
Joy is the music of the season
Joy is the music of the season*
