

LET'S TAKE THE MAJOR SHOT

I have never been a subject
But I would not object
To doing things with you
I have never done before

Squatting on this filthy rock
Where fingers block our sight
Dreams are precious
But they don't make it anymore

Chorus

*We are all still stuck
In the what is not
So come to me blind misery
Let's take the major shot*

Bridge

The major shot is scary stuff
You got to prove you are tough enough
You've got to dig real deep to be any good
Then try your best to be understood

I'll forget all I know
I'll forget what I've seen
What's it matter now
I know what nothing means

We gotta stop choosing
Escape routes and parachutes
And we gotta dance away
From our dreams

Chorus

*We are all still stuck
In the what is not
So come to me blind misery
Let's take the major shot*
