

LIVING LIFE LIKE A SONG WITH YOU

Our words, our music merge halfway
To form the notes we need for speech
Then become the language we use each day
To bring all that we want within reach

Chorus

*Accepting all that life is giving
Making it work and trying to stay strong
Enjoying the hymn we share for living
As life surrounds us like a song
Living life like a song with you*

We can be a full-blown symphony
With movements that fill a concert hall
Or a poet playing alone quietly
Not even caring who listens at all

Chorus

*Accepting all that life is giving
Making it work and trying to stay strong
Enjoying the hymn we share for living
As life surrounds us like a song
Living life like a song with you*

Bridge

Wherever we go there are words and music
Wherever we move we find rhythms and beats
Life contains the melodies and harmonies
Where love and rhapsody meet

Our words, our music merge halfway
To form the notes we need for speech
Then become the language we use each day
To bring all that we want within reach

Chorus

*Accepting all that life is giving
Making it work and trying to stay strong
Enjoying the hymn we share for living
As life surrounds us like a song
Living life like a song with you*
