

MAMA SEE-MAMA WANT-MAMA DO

I saw you at the construction site
It's so exciting to see a worker wearing
Dress clothes in the cold morning light
You looked at me-I had to stop-
You took my breath away-
You said you'd return it later in the day

Chorus

*Mama see-Mama want-Mama do
Never knew what I was missing till I met you*

You looked like you were about 5' 3"
But your shadow was around 6' 2"
Your eyes were as blue as the cruel blue sea
And your hair was the color of a lion's do

Chorus

*Mama see-Mama want-Mama do
Life is not worth living except when I'm with you*

You asked about the life I led
And if I wanted to get away for a few nights
I knew then I was in over my head
But I couldn't show that look of fright

Chorus

*Mama see-Mama want-Mama do
How could there be loving without you?*

I said I had to go and place a bet
You said that's good-it gives a man some cred
I asked if there was any advice I could get
You told me I should take Goliath with the spread

Chorus

*Mama see-Mama want-Mama do
We're gonna be together until we're through*
