

MOVIN' FOR YOU

Never, never has anything
Felt so sweet
As when you're going strong
But running on fumes

Our moments together burn bright
Upon the sky
While I've watched the rest of my life
Fall into ruin

Chorus

*Only if you're movin'
Can you tell you're movin'
Only if you're movin'
Can you tell what's movin'*

Like a dream which dissolves
Or somehow changes shape
Then begins to lose meaning
As you try to explain

Those of us
With only one choice
Must move...always move
In the breakdown lane

Chorus

*Only if you're movin'
Can you tell you're movin'
Only if you're movin'
Can you tell what's movin'*

Bridge

You see, motion is the measure
When you love too hard
You're bound to lose
But feeling is the pleasure
And that's what I want-
I'm movin' for you

This real time is a trench
And drying up is a drag
Not like riding wild
On the third rail

Or like flying to a strange city
On a foggy night
When you don't even care
If you fail

Chorus

*Only if you're movin'
Can you tell you're movin'
Only if you're movin'
Can you tell what's movin'*
