

MY SECOND COMING

Hope I make it to my Second Coming
Our lovin' is gonna be so fine
These closed little shells will finally crack
And we'll open to our own special time
Always the beginning looking back

Hope I make it to my Second Coming
Our love will be so much fun to see
We'll be lovin' just like water
I in you-you in me
Until we become each other

Hope I make it to my Second Coming
How wondrous will it be
When love's bold yearning circles round
And greets itself
When love's bold yearning circles round
And completes itself
Now this is a sign that I want to see
Now this is a sign that I want to see
Hope I make it to my Second Coming
