

MY SNUG IN THE SKY

I can't believe how much there is to see
As each season offers something new
The world's a pageant all year long
And from my snug I have a perfect view

Chorus

*You know you can find me
In my snug in the sky
Just singing to myself
Watching the seasons dance on by*

I see winter's white blanket
Hear spring's green flame
Squeeze summer's rich basket
Feel autumn's blazing mane

Chorus

*You know you can find me
In my snug in the sky
Just singing to myself
Watching the seasons dance on by*

Bridge

I never really get lonely
I got my friends for company
They make the days so lovely
And fill the nights with mystery

Winter's white blanket is soothing
Spring's green flame invites
Summer's rich basket gets us moving
Autumn's blazing mane excites

Chorus

*You know you can find me
In my snug in the sky
Just singing to myself
Watching the seasons dance on by*
