

NECROCASH

Imagine you were a real-life Pharaoh
Descended from kings who were the first to know
That it'd be cool to have an ultimate stash
To bring along when it was time to go
But they never had what you got now: Necrocash

Chorus

*You cannot take it with you when you go
So you'll have to make it when you get there
Now here's a secret you'll be pleased to know
Necrocash is the answer to your prayer*

Things been happenin' you don't understand
You try to save but nothin' goes as planned
You hear that big, old clock lickin' its chops
But you don't know when your time is at hand
So you're left guessin' how long till it stops

Chorus

Bridge

Necrocash is the forever stash
It's the perfect below-ground opportunity
It's better than a bond from beyond or Necrocurrency
So you don't have to worry about
Those wacko things you did when you were alive
Necrocash is accepted wherever you arrive

You got no way to protect all your stuff
Just use this plan and you can earn enough
When you think of the grief you've had to endure
And all the rotten times that turned out rough
You owe it to yourself to make your afterlife secure

Chorus
