

OUT OF MY MIND OVER YOU

You got me smelling the world all inside out
The voices in my head are screaming upside down
I'm living a strange life I don't wanna talk about
On a fake planet I swear ain't round

CHORUS

*I don't know why I do the things I do
I can't be sure the truth is even true
I know I'm out of my mind over you
And I'm starting to fear that you love me too*

I wake up sweating from brutal night streams
Can't shake the mares busting through my day
I'm chased non-stop by wild alley dreams
You got me walking barefoot in the subway

CHORUS

*I don't know why I do the things I do
I can't be sure the truth is even true
I know I'm out of my mind over you
And I'm starting to fear that you love me too*

I got the ancient folk to hang with the young
I got blurry visions that can pass through lead
I listen to myself singing in tongues
I'm watching myself dance with the dead

CHORUS

*I don't know why I do the things I do
I can't be sure the truth is even true
I know I'm out of my mind over you
And I'm starting to fear that you love me too*
