

SELF-SATURATION

Chorus

I'm really getting into me

I'm the only one I want to see

This goes way beyond infatuation

I got me a case of self-saturation

If I am not seen I cease to exist

And, yes, I know I would surely be missed

What is good for me is good for all

This is my court- my game- my ball

Chorus

I'm really getting into me

I'm the only one I want to see

This goes way beyond infatuation

I got me a case of self-saturation

Bridge

I do not know another way

It's how I get my self-confirmation

There is nothing more to say

I live for self-contamination

The sun shines on me so much brighter

The tribe stands by me so much tighter

I am irresistible to myself

I ain't got room for no one else

Chorus

I'm really getting into me

I'm the only one I want to see

This goes way beyond infatuation

I got me a case of self-saturation
