

SHE WANTED MY FACE

I have to learn everything about you
She said to me one day
I need to know your deepest thoughts
If you really want me to stay

Chorus

*I hoped that I would get it right
But such was not the case
I opened up my mind
But she wanted my face*

I want us to bond on the deepest level
She wrote to me online
It sounded good to read those words
So I replied: That's fine

Chorus

*Thought I knew what she meant by that
But such was not the case
I let her see my heart
But she wanted my face*

Bridge

Revolutions can be scary things
If you know what's goin' on
But most of us have no clue
We're just hangin' in and holdin' on

She said I'd like to share your very essence
Which I had never heard before
But the notion itself appealed to me
So I said: I'll give you that and more

Chorus

*I felt that we might work it out
But such was not the case
I offered her my soul
But she wanted my face*
