

## SONG IN MY HEART

I still got control of my bodily functions  
Folks around here are getting nervous though  
Thinking I'm headed toward self-destruction  
But I'm above the radar and below the scope  
Doing what I'm doing and resisting the big suction

### *Chorus*

*Got a monkey on my back  
A poodle on my lap  
And a song in my heart*

As you brought my lips to your steaming cup  
I heard you complain we were way too good  
So you took it on yourself to shake things up  
You said we'd go to places I could only imagine  
But they're nothing compared to what I've seen close up

### *Chorus*

*Got a monkey on my back  
A poodle on my lap  
And a song in my heart*

Got a song in my heart no one knows about  
It's like nothing I've ever felt before  
I keep it to myself though I really want to shout  
It is rising inside me pounding so strong  
Like water behind a beaten dam  
It's gonna have to bust out  
It's gonna have to bust out  
You know one day it's gonna have to bust out

### *Chorus*

*Got a monkey on my back  
A poodle on my lap  
And a song in my heart  
And a song in my heart  
A secret song in my heart*
