

SPIT ME OUT

I know it's no good looking back
On all the things I never done
But now and then I get all weak
Sitting around feeling glum
So I let myself go sneak a peek
And though it's really dumb
Like hearing an old music track
In some sad way, I hoped it might be fun

Chorus

*Time swallowed me whole
Never spit me out
Always kept control
So I wonder if I'll ever see
The person I was meant to be*

I never could buy a Muscle Car
And though I wasn't going far
I would have been on my own
To catch a ride upon a star
Instead of finding myself alone
Smackin' at some local bar

Chorus

*Time swallowed me whole
Never spit me out
Always kept control
So I wonder why I always see
The person I never thought I'd be*

I wanted to work for the Bunco Squad
Since I really thought I was tough
They soon found out I wasn't that rough
And said I'd never have enough
Which sort of left me scarred
So I headed straight to the hard stuff

Bridge

I will always remember
How I loved you so
Never felt I was good enough
That's just the way some things go
I loved you so
Never felt I was good enough
That's just the way some things go

I had a tryout with the Beefsteak Crew
I needed to give my life a spark
They decided to check me out in the dark
Then wrote that my future's pretty stark
And I had no shot of making it through
I went to slug bags of beer in the park

Chorus

*Time swallowed me whole
Never spit me out
Always kept control
So I wonder if it will always be
The way things are is what I do not see
I wonder if it will always be
The way things are is what I do not see*
