

THE PRETTY SIDE OF BAD

I saw her from across the room
So I could not hear the warning alarm
But I am sure it was screaming loud
That this junket was gonna do me harm

Chorus

*I hoped there were no troubles I would incur
Or too much grief that would leave me sad
But I sensed when I was lookin' at her
I was lookin' at the pretty side of bad*

I started to move a little closer
And I could tell she still looked great
I said YO! and we began to chat
Sad to say, I never did hesitate

Chorus

*I hoped there were no troubles I would incur
Or too much grief that would leave me sad
But I sensed when I was talkin' to her
I was talkin' to the pretty side of bad*

Bridge

So she says let me tell you what will be
This is how you're gonna treat me
You better worship what you got
If you want a luscious slice of succulence
But if you don't deliver the what is what
You will get a tanker ton of truculence

After a while we got past this mess
And clawed our way into other stuff
I figured this would be a painful path
But had no idea it would be so rough

Chorus

*I hoped there were no troubles I would incur
Or too much grief that would leave me sad
But I sensed when I was fallin' for her
I was fallin' for the pretty side of bad*
