

## WATCHING THE WORLD DROP AWAY

The dinosaurs would fall into sticky tar pits  
And slowly sink from sight  
Warriors would fall in battle, then die thinking:  
"Man, I hope it was worth the fight."

### *Chorus*

*Why should we be content  
With merely falling in love  
When we both understand  
It's not half good enough  
We're gonna get ourselves into something even better  
Moving at our pleasure in the opposite way  
Leaving our treasure to the worms and slugs  
Watching the world drop away*

### Bridge

Shooting stars fall into the sea  
Love ain't falling for you and me  
Falling for things doesn't sound all that kind  
We gotta rise into love and  
Leave this worldly mess behind

Cities have always fallen across the years  
Souls will slide and fall through the cracks  
Confidence will fall to all-time lows  
We fall off the wagon, we ain't ever coming back

### *Chorus*

*So why should we be content  
With merely falling in love  
When we both understand  
It's not half good enough  
We're gonna get ourselves into something even better  
Moving at our pleasure in the opposite way  
Leaving our treasure to the worms and slugs  
Watching the world drop away*
