

WE WILL ALWAYS BE IN LOVE

I guess it is kind of funny
How life has banged us around
How it has raised us up high
Then smacked us back down

And I guess we have to wonder
How the journeys that we chose
Made some doors fly open
While others would close

Chorus

*There is so much happening in these times
We feel no sense of reason or rhyme
This is what we hold inside
We will always be in love
And this we can be sure of*

So many things in this world
Are beyond our control
Yet they disrupt us each day
And leave our stories full of holes

We did try to write our own story
But we started much too late
We had so little time to work with
There was nothing we could create

Chorus

*There is so much happening in these times
We feel no sense of reason or rhyme
This what we hold inside
We will always be in love
And this we can be sure of*

Bridge

We both realize
There is nothing else in store for us
We both understand
There will be no more for us
The only words we have left to say
We will always be in love
And no one can ever take that away

We cannot be certain
Of what we know
And we can never be
Until we let it go

We had to let each other go
Even though you and I belong together
Each of us will always know
We will share our love forever

Chorus

*There is so much happening in these times
We feel no sense of reason or rhyme
This is what we hold inside
We will always be in love
And this we can be sure of*
