

WHEN THE NIGHT IS FOR LOVIN' AGAIN

We've been apart for way too long
And the loss we've felt has been way too strong
The paths we've taken-the things we've done
Have kept us moving-always on the run

Chorus

*We know these mad times can't last forever
Let's hope these bad signs don't crash together
These troubled days will come to an end
When the night is for lovin' again*

How could we have ever guessed
That this world would never let us rest
Or how the times I had to get through
Would show me how much I needed you

Chorus

*We know these mad times can't last forever
Let's hope these bad signs don't crash together
These troubled days will come to an end
When the night is for lovin' again*

BRIDGE

Don't we know this world is not gonna change...?
Don't we know these times will remain the same...?
We can't blame the world-we can't blame the times
For the lovin' we're missing in our lives

We'll make the troubles in our time end
When we make the night for lovin' again.
We'll make the troubles in our world end
When we make the night for lovin' again

Chorus

*We know these mad times can't last forever
Let's hope these bad signs don't crash together
Yes...these troubled days will come to an end
When the night is for lovin' again
Yes...these troubled days will come to an end
When the night is for lovin' again*
