

## YMF

We were waiting for the Double R  
The train we call the Rock n' Roll local  
You were reading your 3rd year Latin  
I felt about as deep as a street puddle  
But had at least peeled myself from the satin

### *Chorus*

*The things I heard you talk about  
I gotta say left me very impressed  
Try to save as much as you can though  
There's an awful lot of tunnel left*

We only spoke a few words  
To each other that first day  
We were both trying to play it smooth  
Like people who've spent a lot of time  
Hanging around a coed bathroom

### *Chorus*

*The things I heard you talk about  
I gotta say left me very impressed  
Try to save as much as you can though  
There's an awful lot of tunnel left*

### Bridge

The subway's not a good place  
To turn profound  
You keep yourself at a safe distance  
Then the bodies squeeze in  
You got nowhere to turn around  
They're crawlin' all over your bones  
And you don't even get a chance  
To say a pound

I was hoping this time would be different  
That we might figure out  
What this ride had really meant  
But it doesn't matter now 'cause  
This OMF has to go downtown  
To try to make his rent

### *Chorus*

*The things I heard you talk about  
I gotta say left me very impressed  
Try to save as much as you can though  
There's an awful lot of tunnel left*
