

YOU MAKE THE WORLD TURN INTO POETRY

I see the sun's light reflect off your hair
Your hair glistens like a waterfall
I see the moon's light shimmer on your skin
Your skin glows like a snow-covered slope
I see your eyes absorb the rhythms of the earth
Your lips curl perfectly like a musical note

Chorus

*You are elevating time from time
Taking me away from all that I've known
You are separating life from life
Showing me a way to get saved on my own*

Hair glistens like a waterfall
Skin smooth as a snow-covered slope
Eyes that only whisper what they know
Lips curl perfectly like a musical note

Chorus

*You are elevating time from time
Taking me away from all that I've known
You are separating life from life
Showing me a way to get saved on my own*

Hair like a waterfall
Skin a snow-covered slope
Eyes whisper what they know
Lips a musical note

Chorus

*You are elevating time from time
Taking me away from all that I've known
You are separating life from life
Showing me a way to get saved on my own*
