

YOUR SINS ARE GONNA FIND YOU

If you think you can hide
That's a big mistake
If you think you can slide
That's just a jukey fake
Your sins are gonna hunt you down
And soon your world is gonna break

Chorus

*Your sins are gonna find you
Your sins will define you
They will undermine you
Your sins are gonna find you*

You thought you'd get away with it
But you were droolin' in your nets
You hoped you'd be OK with it
But you were losin' all your bets
Your sins are gonna hunt you down
And soon you'll be coolin' off your jets

Chorus

*Your sins are gonna find you
Your sins will define you
They will undermine you
Your sins are gonna find you*

Chorus

*Your sins are gonna find you
They will come to define you
They will serve to undermine you
Yep-your sins are gonna find you*
