

GONNA CONQUER MYSELF

I find myself in the same exact place
I have been a thousand times before
Fighting the battle I have chosen to face
Scratchin' for strength, for courage, for more

Chorus

*Gotta conquer myself
Been dealing with myself so long
I'm getting sick of fakin' it
Gonna conquer myself
I know where that crown belongs
It's all on me to start takin' it*

I got to roll straight ahead
Can't listen to the noise and crap
Gonna fight this thing till I'm dead
If I go soft then I got no rap

Chorus

*Gotta conquer myself
Been dealing with myself so long
I'm getting sick of fakin' it
Gonna conquer myself
I know where that crown belongs
It's all on me to start takin' it*

Bridge

I am my own worst enemy
I got this crazy blood inside me
Keeps getting in the way
Swear it tempts me every day

This ain't no one's business but my own
I don't need no one's help
I will do it all alone
I answer only to myself

Chorus

*Gotta conquer myself
Been dealing with myself so long
I'm getting sick of fakin' it
Gonna conquer myself
I know where that crown belongs
It's all on me to start takin' it*
