

ONE PIN OFF

Things are really not going well
The circuit is no longer moving straight
It dumps us in a screaming hell
Or in a stinking cesspool of hate

Chorus

*Some connection is missin'
Something we had is now lost
No one is willing to listen
Our world has become one pin off*

I've been fighting with myself again
Just can't seem to settle my mind
The deafening barrage never does end
Peace is so hard to find

Chorus

*Some connection is missin'
Something we had is now lost
No one is willing to listen
Our world has become one pin off*

Bridge

One pin off means nothing is whole
One pin off means nothing's complete
We are driving ourselves out of control
We all will suffer the same defeat

Now I know I have had enough
I'm sick of having way too much
The coming chaos is gonna be rough
As we slither along so out of touch

Chorus

*Some connection is missin'
Something we had is now lost
No one is willing to listen
Our world has become one pin off*
