

LIVIN' A LOVE ALL OUR OWN

The real life we had
Always seemed a bit unreal
As we'd never let the world come between
The magic we would feel
From the silent beauty of
Lovin' dream-to-dream

Chorus

*Lovin' heart-to-heart was not our choice to make
So this was the journey we had to take
To the sacred place where we loved alone
Livin' a love all our own*

We never looked for any help
There was nothing to be found
It became just you and me
With our satin cloak wrapped around
The love we could not show
Lovin' mystery-to-mystery

Chorus

Bridge

We could feel our harps play
We could hear our angels sing
We tried all we could to find a way
But it never did change a thing

Our love seemed so life-defying
The cost of sacrifice we shared back then
We never could complete our story
Until we brought it to an end
With the blessing we will feel forever
Lovin' glory-to-glory

Chorus
