

## THE PRETTY SIDE OF BAD

I saw her from across the room  
So I could not hear the warning alarm  
But I am sure it was screaming loud  
That this junket was gonna do me harm

### *Chorus*

*I had the sense that heartache would occur  
And I'd be left feeling sad  
'Cause I saw when I was lookin' at her  
I was lookin' at the pretty side of bad*

I started to move a little closer  
And I could tell she still looked great  
I said YO! and we began to chat  
Sad to say, I never did hesitate

### *Chorus*

*I had the sense that heartache would occur  
And I'd be left feeling sad  
'Cause I heard when I was talkin' to her  
I was talkin' to the pretty side of bad*

### Bridge

So she says let me tell you  
How this is gonna be  
You better worship what you got  
If you want a luscious slice of succulence  
But if you don't bring the what is what  
You will get a tanker ton of truculence

After a while we got past this mess  
And clawed our way into other stuff  
I figured this would be a painful path  
But had no idea it would be so rough

### *Chorus*

*I had the sense that heartache would occur  
And I'd be left feeling sad  
'Cause I knew when I was fallin' for her  
I was fallin' for the pretty side of bad*
